## 200 Series: Automotive Systems - the "FrontSET"

A revolutionary design in seat heaters combines 2 full seat heater systems and provides:

- ✓1 Connection to power
- ✓1 Controller
- ✓Your Choice of Switches
- ✓Your Choice of Settings

\*All Premium seat heater kits exclusively offer the hottest available temperature.

### \*Premium Dual

3 Settings + off, 2 Seats, 1 Power hook-up, Zero Hassle

A single switch with controls for two seats offers the quickest installation. These new thin membrane switches open a world of options for placement on the center console or instrument panel.

### \*Premium Twin

3 Settings + off, 2 Seats, 1 Power hook-up, Zero Hassle

When the Dual switch is not practical, this option allows installation of two switches in separate places.

### \*Premium Classic (Call for availability)

3 Settings + off, 2 Seats, 1 Power hook-up, Zero Hassle

This three temperature HI-MED-LO seat heater allows for the "classic" installation in the seat trim.

### Luxury Classic

2 Settings + off, 2 Seats, 1 Power hook-up, Zero Hassle

Due to popular demand, we were able to combine this classic LUXURY switch with the features of the new FrontSET.

## 100 Series: Automotive Systems

### \*Premium with Massage

3 Heat Settings + off, 4 Massage Settings + off, 1 Seat

An all season accessory great for installing during the warm season! Customers with back aches will appreciate their very own "Spa On Wheels" all year long.

This kit builds on the advantages of the Premium kit by adding 4 motors placed in the back rest of the seat. All functions are built into a patent pending switch that controls 20 combinations of settings and a chiropractor designed template is provided for quickness and ease of installation.

### \*Premium Single

3 Settings + off, 1 Seat

Looking for the hottest option? Our premium kits add those few extra degrees to make a difference. Want to sell the benefits of the FrontSET but your customer only needs one seat? Here's the solution.

### \*Premium Classic (Call for availability)

3 Settings + off, 1 Seat

This three temperature or HI-MED-LO seat heater kit has a digital controller for more controlled and consistent heating with momentary switch.

### Luxury Classic

2 Settings + off, 1 Seat

Just leave the latching switch on and it will start heating with a remote start system! The system includes an automatic shut-off function after one hour of continuous operation and diagnostic feedback.

### Standard

1 Setting + off, 1 Seat

This single-temperature seat heater kit has thermostat temperature control with latching rocker switch.

Hardware pack contains mini and ATO type fuse taps with inline fuse and adaptor, crimping wire connectors.

## Automotive Occupant Sensor Compatible Systems\*

\*Not compatible with all manufacturer types of sensors. Reference our selection guide for suggestions on compatible vehicles.

### Single Element Kits

1 Seat Modified (Either Cushion or Backrest), ANY style

Single element kits are available for those vehicles with front passenger seat occupant sensors that are not compatible with both leanback and cushion heaters.

## 1 Seat Motorcycle Systems

### Luxury Motorcycle Kit

1 Seat, 2 Settings + off

This dual-temperature or HI-LO seat heater kit now available for **motorcycles** has a digital controller for more controlled and consistent heating with latching **waterproof** rocker switch.

The system also includes an automatic shut-off function after one hour of continuous operation and diagnostic feedback.

### Standard Motorcycle Kit

1 Seat, 1 Setting + off

This single-temperature **motorcycle** seat heater kit has thermostat temperature control with **waterproof** latching rocker switch.

## Limited Warranty

This Product is warranted to be free from defects in manufacturing and workmanship and is guaranteed to work for **three years or 36,000 miles, or whichever occurs first**. This Limited Warranty covers the repair or replacement of the seat heater components only and does not cover any costs related to or damage resulting from the installation of the seat heater. Seat heaters must only be used in the seat applications for which they were designed, tested and approved by Check Corporation, and failure to properly install the designated seat heated product, or improper installation or misuse of any component, will void this Limited Warranty. Installer shall indemnify and hold Check Corporation harmless from any and all installations contrary to automobile OEM, automobile dealership, and Check Corporation issued instructions.

See product for full warranty information.
